# How we are doing this

- Two-way flow of information:
  - Presenting tenders to Polish companies
  - Presenting the capabilities of Polish companies to the Big Science community
- Financial support:
  - Funding of selected activities provided by government
  - Funding from private enterprise
  - Occasional funding from projects for dedicated events

# Future aims, outlooks & objectives

**www.big-science.pl** will launch later this year

- **Connecting**
  - Support Polish companies to expand their business networks
- **Promoting**
  - Workshops, partner and industry days, incubators, useful information and other targeted activities
  - Training about working with Big Science projects
- **Consolidating**
  - A central point of contact, through which all Big Sciences can interact with potential Polish suppliers and contractors

# What we've done so far

Conference jointly organised by **WPT** and the **Polish Coalition of Innovation**

# What we've done so far

We know we've got a

**BIG CHALLENGE**

ahead of us,

but we're confident that our continued and combined efforts will bring

**HUGE BENEFITS**

to both

**Polish industry**

and

**Big Science**
